Re: Petition or Request for a Site Visit to All Areas scheduled for Rail Line and Road Installation As Well As All Areas Where the Actual Nuclear Power Plants and All Buildings of the Nuclear Facility Pertaining to Docket # 2008-196-E, The Combined Application of South Carolina Electric and Gas Company for a Certificate of Environmental Compatibility and Public Convenience and Necessity for a Base Load Review Order for the Construction and Operation of a Nuclear Facility in Jenkinsville, South Carolina

Dear Mr. Terreni,

As a customer of SCE&G I petition the Public Service Commission to grant my request to direct SCE&G to provide a site visit for all Intervenors, Protestants, Representatives, and Other Litigant and Parties established for Docket # 2008-196-E.

All the parties involved need an opportunity to understand the exact parameters as well as perimeters in question. Being knowledgeable about the site designation boundaries within which the Utility wishes permission to clear accomplish two things. First, the court time will be reduced, as all the parties will be on the same page as far as the defined geographical area intended by SCE&G's land clearing request is concerned. Second, the exact areas being known by all will ensure accountability on behalf of the Utility when actual clearing occurs.

I am serving all other parties of record with a copy of this enclosed request.

Sincerely,

Pamela Greenlaw
